QUALITY + EFFICIENCY + EXPERIENCE

At CDM, our formula for business is uncomplicated.

At CDM our people are:

- Dedicated
- Experienced
- Professional
- Dependable

CDM combines over 70 years of successful agricultural and industrial experience to deliver cost effective results. Our background includes:

- Construction and project management
- Equipment manufacturing and design
- Process design, installation, and operation
- Complete facility and plant development

If you want to build with confidence...you need CDM's knowledge and experience on your next project.

From the simple to the complex, CDM has met the challenge — including:

- General Contracting & Construction
- Industrial Processing
- Feed & Grain Facilities
- Pet Food Plants
- Plant expansion & additions
- Structural steel erection
- Tanks, hoppers, and supports
- Bulk Loadout Systems
- Commercial Buildings
- Systems Installation & Service
- Grinding and size reduction
- Mixing and blending
- Scaling systems
- Screening and separation
- Material handling systems
- Liquid coating systems
- Pelleting and extrusion systems
- Cooling and tempering systems

Few Companies Can Demonstrate...

...the overall depth of experience, knowledge or understanding in processing, construction, facility design or machine operations that can be found with CDM.

Our multi-discipline skills are what you need on your next project.
